

KNEE BRACING AND SUPPORT

Tru-Pull Patella Tracking Knee Support

Designed to place a dynamic pull on the patella during knee extension to normalize tracking

Lateral J Patella Support

Ideal for lateral patellar subluxation dislocations or improper patellar tracking

Deluxe Hinged Knee, Open Popliteal

Recommended for moderate stability for knee ligament meniscus injuries, sprains and osteoarthritis

Drytex Sport Hinged Knee Support

Recommended for mild compressive support to help promote healing and stabilize knee joint following sprains and ligament and/or meniscus injuries

DonJoy Drytex Hinged Air Knee Brace

DonJoy brace designed for knee joint pain relief associated with patellofemoral malalignment.

Performer Hinged Patella Knee Brace - Neoprene

Recommended for mild or moderate ligament joint pain, sprains, strains, Osgood Schlatter disease or patellar instabilities.

Performer Knee Support

Knee support for mild arthritis, knee sprains and temporary relief from inflammation and joint pain.

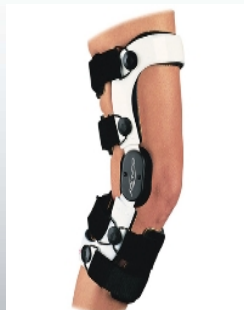

Economy Hinged Knee Support - Neoprene

DonJoy knee brace with single pivot uprights to provide light support for knee joint pain relief from tendonitis or ACL tears.

Armor Protective Knee Brace

Stabilizes mild to severe ACL, PCL, MCL and LCL instabilities or tears by active, sedentary or adolescent patients. Great for preventing knee injury in contact sports.

Defiance Custom Knee Brace (RX Only)

Lightweight brace provides durable support for moderate to severe ACL, PCL, MCL or LCL instabilities. Fits underneath clothing. Recommended for contact, extreme and water sports

Defiance III Custom Knee Brace (RX Only)

Lightweight carbon frame brace provides durable support for moderate to severe ACL, PCL, MCL or LCL instabilities. Fits underneath clothing. Recommended for contact, extreme and water sports.

Female Fource (Off the Shelf) ACL Brace

Specifically designed for women addressing biomechanical factors implicated in ACL tears. Uses hinge technology to increase knee flexion angles limiting the time the knee is in at-risk positions during activity.

OSTEOARTHRITIS BRACING AND SUPPORT

**Opal Osteoarthritis
Knee Brace**

Low profile, lightweight, easy to apply and breathable knee brace for use by patients with mild to moderate unicompartamental knee OA.

**OA Everyday
Osteoarthritis Brace**

Great for mild to moderate unicompartamental osteoarthritis and mild ligament instabilities.

**Cartilage
Knee Sleeve**

DonJoy knee brace provides compression and stability after arthroscopic surgery for meniscus tear, knee swelling and bursitis as well as ACL tears.

**Adjuster Osteoarthritis
Knee Brace**

Uses bi-axial hinge technology to provide the ability to control the desired amount of load as needed by patients with osteoarthritis pain. Commended for ease of use by the arthritis foundation.

Cool IROM®

Ideal Application

For warmer climates, the Cool IROM provides immobilization and precise range-of-motion control for ACL, PCL, MCL and LCL surgeries. Formable hinge bars allow for varus/valgus positioning.

Features and Benefits

- 10° incremental settings
- 4 straps and abbreviated foam at key control points
- Integrated strap/hinge bar design
- Hinge bar breakdown capability

Rehab TROM®

Ideal Application

Ideal for total knees, meniscus repairs, regenerative chondroplasty, ligament surgeries and patella realignments, the Rehab TROM gives easy-to-use range of motion control and short cuffs for extended rehabilitation. The Rehab TROM can be used as a rehab brace or the cuffs can be purchased separately be used with the TROM post-op brace.

Features and Benefits

- Innovative, easy-to-use hinge
- Quick release buckles
- Removable, washable, latex-free cuffs
- Easy to apply
